

What Does ABI Rehabilitation Have to Offer You?

Specialised services for traumatic brain injury and other neurological conditions with facilities in Auckland and Wellington

Intensive Rehabilitation

Post-acute inpatient rehabilitation

Post-acute adult (>15 years) inpatient rehabilitation for all severities of impairment, from minimally conscious clients through to those needing a 'burst' of intensive interventions. Day rehabilitation options are available.

Client referrals

Services for all moderate-to-severe TBIs in the North Island who are eligible for rehab.

Referrals accepted for strokes and other conditions in the local Auckland and Wellington areas.

Brain injury specialist nurses

Our rehabilitation specialist nurses work across the 16 DHB's within our contracted area. They work alongside hospital staff to identify clients suitable for TBI rehabilitation and facilitate the transition for the client and their family into rehab.

Rehab programmes via full inter-disciplinary team

Community Rehabilitation

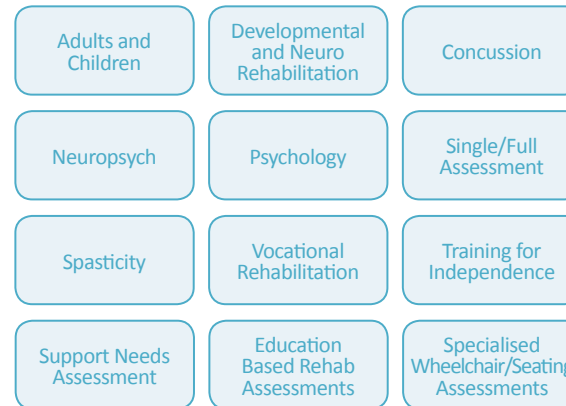

Clinic, home and school based rehabilitation

Assessment and rehabilitation services can follow on after discharge from intensive rehabilitation or hospital and tailored for a wide range of injuries and severity.

Client referrals

All ages and all conditions who are eligible for rehabilitation. Services provided in the local Auckland and Wellington areas.

Services:

Residential Rehabilitation

Supported residences

Services are goal-directed but with a more gradual trajectory. Some clients are improving their independence and working towards community discharge, while other clients have a home for life.

Client referrals

Adults with neurological conditions who are eligible for rehab. Services provided in the Auckland and Wellington areas.

Multi-disciplinary services

Provided in community-based residences and rehabilitation ward.

CARF accreditation since 2012

Assessor quotes from 2016 survey:

- Commended for its leaderships commitment and initiatives in IT
- Passionate and energetic therapist and direct care workers
- Dedicated to the delivery of person-centered brain-injury rehabilitation
